Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

> A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.
> Thin hair is thick-

ened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

H. NATHAN, JR, & CO., Wharf street.

The Dominion must be Free. The local reader will doubtless recollect that during the late session of the Legislative Council a battle was fought for selt-government. That battle was lost and won. Lost, because there was an overwhelming official majority against the principle of self-government. Won, because, out of the nine elected members in the Council, six were ranged on the liberal side, and three only took their stand in the offi-cial ranks. Moreover, of these three two, having been taken into the Exeoutive, had given way under the se-ductive influences of the mysterious Chamber. Thus it was claimed, and certainly not without reason, that although the result was in one sense a defeat, it was in a far higher and more important sense a victory for the Liberals-that the contest was in reality six to one, in so far as a free vote was concerned. Yet, notwithstanding this, the resolution asking that a constitution based, upon the principle of R a s, onsible Government might be conferred upon this Colony coincident with its admission into the Dominion of Canada was not sent to Ottawa. Nay, more, the Governor selected as Delegates three members of the Government all of whom had opposed the people's representatives in their effort to obtain Responsible Government! It is, how, ever, a consoling reflection that these anti Responsible Government Delegates will have to deal with statesmen at Ottawa who will insist that British Columbia must take no lower political states than the other provinces with which a union is to be formed. This they will do upon two grounds. First, because every part of the new empire must be free; there must be no serf-dom within its borders. The new nation must be built upon political as well as religious freedom. Secondly, bethey perfectly understand the official vote, and have good reason to know that the great body of the col-Onists not only desire Responsible Government, but that they are fit for it! In proof of the determination of the Ottawa statesmen that every province in the Deminion shall have and exercise the full rights and powers of seif-government it will only be necessary to refer to the case of Red River. It will refer to the case of Red River. It will be recollected that the recalcitrant inhabitants of that country recently im-provised a Council and drew up a "Bill of Rights" setting forth therein the terms and conditions to be asked from Canada. In that Bill of Rights Respon-sible Government was not asked for; but the people modestly asked only that they might be permitted to elect a majority of the legislative body. But what do we find the Dominion Government doing? While ignoring the action of these people as a whole, and refusing compliance with many of their demands in other respects, we find the Dominion Government giving to the province of Manitoba just as full powers of selfgovernment as those enjoyed in Ontario or Quebec! The people of Manitoba did not venture to ask for more than a territorial existence; but they have been given a provincial one. They did not hope for more than a share in the matagement of their own local affairs; but they are put in pos-These are significant facts. They tell us plainly that even if the people of British Columbia did tot rise to the appreciation of their full political rights as free born Britons they will not be british North American Family they are fit for the exercise of the great British North American Family they are fit for the exercise of the full wers of self-government. Let the Delegates of Governor Musgrave tell vie authorities at O tawa that British Columbia is not fit for s-ltygovernment, it they dare. They will get their answer: "It British Columbia is unfit for self-gov-ernment it is unfit to become a part of the Dominion." And who will venture to assert that the people of this Colony are less fit for self-government than are the people of Manitoba? He would indeed be a bold and bad man who would offer such an insult to an intelli-gent people. Let those blash who have gent people. Let those blush who have been laboring to convince Canada and the world that this people are unfit to manage their own local affairs. Who will now dare to suggest that the people of British Columbia should occupy a lower political status than the ball-preeds of Manitoba? The consti-tution of Manitoba settles the question of Responsible Government for us, and it will not be in the power of British Columbian officialdom, with all its wil-

ling supporters, to reverse the decision. Dominion vs. Accession.

EDITOR BRITISH COLONIST:-It was an nonneed in your paper a few days ago that the Civil Regatta had been put off till the 20th ol June—Accession day—in order to make way for the Naval Regatta on the 25th make way for the Naval Regatta on the 25th inst. Now, sir, I beg respectfully to submit whether it might not be well to further postpoon the Civil Regatta till Dominion Daybe lat of July. I will yield to no man in a desire to do honor to 'Victoria the Good,' both from a feeling of loyalty and as a mark of appreciation of her many excellent qualities; but, having just devoted two days towards that laudable object, might we not, without the slightest disrespect to the without the slightest disrespect to the Queen, celebrate the anniversary of the establishment of her North American Empire preference to the day of her accession to be throne?—a day, by the way, but little elebrated. My own impression is that we would really be paying a better compliment to the Queen by selecting Dominion Day in preference to Accession Day.

The Government received a dispatch from Opotike, yesterday, which contained the follopotike, yesterday, which contained the follopotike, yesterday, which contained the following important news: On the 25th of March Ropata attacked the Jiaraetai pa, and captured it after an hour's engagement. Owing to the slight resistance offered, Ropota did not think Te Kooti was present, which was actually the case. The garrison abandoned the pa after an hour's fighting, the fuglitives falling into the hands of Major Kemp, who was marching down after taking prisoners all Whakatoheas up the river.

The total number killed on the enemy's side is nineteen; prisoners taken, over 300. No loss reported by Major Ropata.

Te Kooti has escaped with about twenty followers. His track lay toward the Waimanawa; but he must have doubled back, as a following party reached Te Ponga and tound the Urewera had all deserted him. Rakuraku and some others have also got off; but Hakarala is killed.'

At St Germain, near Paris, on the 13th April, Susan rances, only doughter of Joseph Pemberton, Esqr., laring trescent, Dublin.

On Tuesday evening several hundred lady and gentleman guests assembled at Government House in response to an invitation from His Excellency Governor Musgrave. For the accommodation of the guests a pavillion had been erected on the north side, extending to the west end of the ballroom. To secure every foot of the room for dancing purposes and afford a constant flow of pure air, the seats that formerly lined the sides of the hall, together with the windows, had been removed, and the band-a very efficient one from Her Majesty's Fleet-placed beneath canopy. The pavillion was beautfully decorated with flags, and on either side were arranged fragrant flowering plants of varied hue, which lent to the scene a charming aspect. At the head of the room in gill letters was the legend- God Save Our Gracious Queen'; at the foot, 'Britannia Rules . the Wave.' His Excellency the Governor and the Misses Musgrave received the guests in the ante-room. Among the guests were: Admiral Farqubar, Admiral Hornby, Capt Lyons, R N, and other officers of HM Fleet, Colonial Secretary Hankin, Chief Justice Begbie, Judge Creuse and Mrs Crease, Judge Caton and Mrs Caton of the State of Illinois, Attorney General Phillippo and Mr. Phillippo. The Ball was opened at 91/2 o'clock by Admrral Farquhar with Miss Musgrave, and Admiral Hornby with Miss Zoe Musgiave, and from that hour until 31 o'clock yesterday morning the enjoyment was uninterrupted. The toilettes of the ladies were generally handsome, and many of them rich and costly. A bountiful repast was served at 12 o'clock. The guests received every possible attention from their host and hostesses, from Mr Musgrave, jr, and from Mr Hankin, by whose efforts the pleasure was greatly enhanced. We venture the remark that all who participated will associate many plea

ALARMING INCIDENT AT GOVERNMENT HOUSE. About 81 o'clock on Tuesday night, while the servants were in the act of lighting up the ballroom at Gevernment House, one of the chandeliers, containing fix coal oil lamps, fell with a crash to the floor. Had the accident occurred two hours subsequently, when the room was filled with ladies in light attire, the effect would have been most serious.

THE NAVAL, REGATTA, yesterday, was the best affair of the kind that has come off on the Pacific. E-quimalt harbor presented an animated appearance, being covered with animated appearance, being covered with small and large craft, gaily decked with flags and streamers. Admirals Farquhar and Hornby and the officers of Her Majesty's Fleet, entertained many friends at luncheon on board their respective ships, and dancing was engaged in by the guests. Tuesday proved a glorious day. The genial showers of the preceding night had thoroughly laid the dust, and the streets and course were in the best possible condition for use. Victoria awoke early on Tuesday morning. At daylight flags nuttered in the morning. At daylight flags fluttered in the soft morning breeze from every staff. The streets were alive with humanity—it is estimated that by 12 o'clock no fewer than 1000 strangers were in town. After the excursion to Esquimalt (noticed elsewhere), the living tide made its way to Beacon Hill course, there to witness the great event of the day—the Races. Eevey description of which—from the handsome close carriage to the lumbering emitting, and every horse rom the smart racer to the spavined jide on which the knacker holds a lien—were called into requisition to convey passengers to the ground. The weather was in every respect favorable.

Tavorable.

Among the gentlemen on the course were his Excellency the Governor, Admiral Farqubar, Admiral Hornoy, Capt Lvons, R.N., Capt Bythessa, R.N., Capt Hopkits, R.N., Capt Lacy, R.N., Capt Gibson, R.N., Capt Ross, R.N., Capt Mist, R.N., Capt Delacomb, R.M. L.I, and many other efficiers attached to Her Majesty's Fleet, all of whom evinced a great interest in the various contests. The number present on the full could not have been less than 2500 persons, many of whom were ladies, who filled the Grand Stand. Precisely at one o'clock, p.m., P. R. Clarke, Esq., Judge and Starter, called the

Wagers were treely offered with heavy odds on Cafe-au-lait. The horses got a splendid start and swept like the wind over the course to the hall-mile post, Lucy leading. Here Deacon pressed closely upon Fanny's flank, and at the last quarter the two horses were almost neck and neck, the other horses being sufficiently far behind to render the closing neek and neck, the other horses being sufficiently far behind to render the closing
of the sea an impossibility. The interest
centered in Deacon and Lucy. The interest
plied whip and spur energetically, and the
animals, seeming to coter into he spirit of
the contest, exerted themselves to the utmost. As they passed the starting-post
Lucy drew half a length abead, and was
apparently witcoing the gap; but Lieut
Fitzgerald mistook the starting for the
winning-post and reined to Lucy, and Deacon shot ahead like an arrow from a bow,
winning the race and intense excitement.

THE BLUE JACKET RACE—Was a very amusing affair. Four borses started, one of which bolted to the brush and brushed the rider from his back. The Scurry Stakes were carried off by Volreece, who honestly won them, and about six o'clock P M the crowds returned to the city and Beacon Hill was left silen and deserted.
